Call for Workshops and Satellite Meetings ISBPNA 2017

Victoria ISBNPA 2017: Call for workshops

Dear ,

If you're interested in presenting a workshop at the 2017 ISBNPA conference in Victoria, BC, Canada, you can complete an expression of interest form until September 30, 2016.

ISBNPA will provide the room and AV equipment, and will offer the annual meeting registration fees for up to two presenters of the workshop.

Click HERE to access the workshop form online (or copy the following link http://goo.gl/forms/ackxQjLJfkjc5ICp1).

Workshops can be a half or whole day (e.g., 3-4 hours or 6-8 hours), are meant to be for a smaller number of participants, and involve interactive programming (e.g., movement, exercises, role plays, etc.). They should have a high degree of involvement from the participants and ideally would provide tools, resources, etc. or have the participants learn how to utilize existing resources.

In the past, we have had workshops on dietary assessment techniques, measurement of physical activity, developing an intervention using an Intervention Mapping Technique, to name a few.

If you have any questions regarding the form or ISBNPA 2017, please contact António Palmeira, ISBNPA Executive Director at executivedirector@isbnpa.org.

Victoria ISBNPA 2017: Call for Satellite Meetings

If you're interested in organising a ISBNPA satellite meeting at the 2017 ISBNPA conference in Victoria, BC, Canada, you can complete an expression of interest form until September 4, 2016.
